Blaster ADVANTAGE™

Desktop series

Smart Design

Advanced firmware and a leading edge microprocessor enable lightning fast thermal printing. Blaster Advantages are reliable performers for printing dark, easily scannable bar codes, including PDF417 and Maxicode. Flash memory allows long term storage of multiple graphics, label formats, or user fonts. Every printer includes free label design software and documentation, giving the performance of a big box printer in a size smaller than a bread box.

Rugged and Rel iabl e

The Blaster Advantage is the only printer in its price class with the exclusive, rugged metal print mechanism that provides "big box" thermal printer performance and a very small footprint. Like all Cognitive printers, Advantage printer memory can store multiple graphics, label formats, or user fonts for the fastest print speeds. For years, thousands of Blaster Advantages have proven themselves in countless applications, from retail to industrial.
